Legendary Resistance (3/day). If the archfey fails a saving throw, it can choose to succeed instead

Spellcasting. The archfey is a 16th level spellcaster. Its spellcasting ability is Charisma (spell save DC 18, +10 to hit with spell attacks). It has the following spells prepared:

Cantrips (at will): *friends*, *message*, *prestidigitation*, *dancing lights*, *eldritch blast*

1st level (4 slots): *armor of agathys*, *sleep*, *hex*

2nd level (3 slots): *moonbeam*, *crown of madness*, *calm emotions*

6th level (1 slot): *eyebite*, *mass suggestion*

7th level (1 slot): *prismatic spray*, *etherealness*

8th level (1 slot): *power word stun*

Subtle Spell (5/rest). When the archfey casts a spell, it can do so without any somatic or verbal components.

ACTIONS

Multiattack. The archfey makes two attacks with its longbow or rapier.

Rapier. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. Hit: 6 (1d8 + 2) piercing damage.

Longbow. *Ranged Weapon Attack:* +7 to hit, range 150/600 ft., one target. Hit: 6 (1d8 + 2) piercing damage.

Fey Presence. Each creature of the archfey's choice that is within 30 feet and aware of it must succeed on a DC 18 Wisdom saving throw or become charmed or frightened (archfey's choice) for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the archfey's Fey Presence for the next 24 hours.

Dark Delirium (Recharges after a Short or Long Rest). A creature of the archfey's choice that it can see within 60 feet of it must make a DC 18 Wisdom saving throw. On a failed save, the creature is charmed or frightened (archfey's choice) for 1 minute or until the archfey's concentration is broken (as if concentrating on a spell). This effect ends early if the creature takes any damage. Until this illusion ends, the creature thinks it is lost in a misty realm. The creature can see and hear only itself, the archfey, and the illusion.

LEGENDARY ACTIONS

The archfey can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The archfey regains spent legendary actions at the start of its turns.

Attack. The archfey makes one weapon attack.

Shimmering Shield (Costs 2 Actions). The archfey creates a shimmering, magical field around itself or another creature it can see within 60 feet of it. The target gains a +2 bonus to AC until the end of the archfey's next turn.

Misty Step (Costs 2 Actions). Disappearing in a shroud of silvery mist, the archfey teleports 30 feet to an unoccupied space it can see.

Terminal Velocity. The cat is immune to fall damage.

pact. You can trade housing, food and your soul for a house cat. The cat will hunt any mice and flies in your designated house. If you perform this pact, your soul can not be recovered by any means, short of an usage of the Wish spell

Cat-Sith

The Cat-Sith is a fey creature resembling a black cat with a white spot on its chest. It is a stealthy protector of the forests of the Material Plane, as well as a resident of the Feywild. Few have seen the Cat-Sith, but many rumors exist surrounding its existence and purpose.

Some say there is one, immortal Cat-Sith, while others claim they are a race unto themselves. Some say they guard the hidden portals to the Feywild buried deep within jungles and forests in the Material Plane. Others have even reported seeing the Cat-Sith steal the souls of the recently deceased.

In truth, the Cat-Sith are a small collection of felines elevated to Fey by the gods of the Feywild. Their purpose is to stay out of sight or blend in, serving as a sort of reconnaissance unit of the Feywild. While they look nearly identical to one another, those without a sense of the Fey can identify them by the unique shape of the white fur on their chests, although few, if any, humanoids have come close enough to a Cat-Sith to notice. They are gifted with several magic abilities, the strongest of which is power over death. Each Cat-Sith is granted nine lives, lived out consecutively. And each has the ability to banish a dead creature's spirit to the afterlife, permanently, with the rest eternal spell.

While not directly serving the Fey gods, the Cat-Sith are known to engage in mischief or other personal interests, especially those which play to their baser feline instincts.

Challenge 3 (700 XP)

Keen Hearing and Smell. The Cat has advantage on Wisdom (Perception) checks that rely on hearing or smell.

Innate Spellcasting. The Cat's spellcasting ability is Charisma (spell save DC 12). It can innately cast the following spells, requiring no material components:

Constant: *see invisibility*
3/day: *minor illusion*
1/day: *bestow curse*
1/week: *eternal rest*

Magic Resistance. The Cat has advantage on saving throws against spells and other magical effects.

Black Coat. The cat's black coat of fur gives it advantage on stealth checks made to hide or travel in total darkness.

ACTIONS

Multiattack. The cat makes two claw attacks.

Claws. *Melee Weapon Attack:* +5 to hit, reach 5ft., one target. Hit: 5 (1d4 + 3) slashing damage.

Bad Luck. A creature hit by the Cat's claws must succeed on a DC 13 Wisdom saving throw or be stricken with bad luck. For 1d4 rounds, the affected creature loses the ability to land critical hits (natural 20 rolls are treated as a normal attack roll) and also loses the ability to roll with advantage on attack rolls and skill checks.

Cuteness. The Cat behaves in a cute and adorable manner. This behavior often involves the Cat mimicking the common house cat's activities, such as playing with string, kneading with its paws, or rubbing against a humanoid's leg. Every humanoid within 60 feet that can see the Cat must succeed on a DC 12 Wisdom saving throw or be charmed until the Cat ceases its cute behavior. The cat must take a bonus action on each of its subsequent turns to continue behaving cutely. The effect ends if the cat is incapacitated. Any creature charmed by Cuteness is no longer charmed if it takes damage from the Cat. A target that successfully saves is immune to this Cat's cuteness for the next 24 hours.

Nine Lives. After death, this creature rises from the dead at the next sunrise at the den of the Cat-Sith as if affected by a *resurrection* spell. This ability activates no more than eight times.

Demons

Made of ever-churning blood, this yellow-eyed demon is summoned via dark blood ritual where a pool of blood is required. The demon lives within the pool of blood and grows stronger as more victims are brought before it to fill the growing pool.

ACTIONS

Minor Water Elementals lurk in small ponds and rivers, and superstitious folk often come to revere them as river gods. These elementals enjoy being praised for doing nothing and are content to just sleep the years away in their ponds. When summoned from the Plane of Water, minor water elementals throw themselves headlong into battle, hoping to be defeated and thus returned to their home plane.

Minor Air Elementals are rarely seen on the Material Plane, as they are usually content to drift by on gentle breezes high above the earth. When conjured from the Plane of Air to fight, they appear as tiny silver zephyrs or whirling dust devils.

If the target has been hit by another minor water elemental's slam attack this round, it must succeed on a DC 11 Strength saving throw or be pushed 5 feet in a direction of this elemental's choice.

Minor Earth Elementals are common across the Material Plane, but dislike moving and are often mistaken for common rocks, about the size of a large pumpkin.
